Message From Principal

B.Voc. (HealthCare) is a completely new & unique degree course that was introduced in the 2020-21 academic year for the first time in our institution under the University of Gour Banga. This course is completely job oriented; it is designed in such a way that it minimizes the market demand and production gap. As a result, after finishing this degree, students will be able to easily obtain employment in various government and public sectors through college compassing or direct interviews.

Many students who took healthcare as a vocational subject in high school will be able to continue their education in the same stream for the first time in our district. As a result, their expertise will grow, and they will be better prepared to find work in the healthcare industry. By offering this course, we want to increase employment in our region. I wish all interested pupils a bright future.

General Information

B. Voc (Health Care) is a three-year degree programme accredited by the University Grants Commission(UGC). This course is equivalent to a B.A./B.Com./B.Sc./or other Bachelor's Degree course. Gour Mahavidyalaya is offering this degree course in self-financing mode in its own premises using exclusively face-to-face instruction. There will be no Distance or other modes available on this stream. During the first to fourth semester, students will study Healthcare as an honors paper while also studying general and other compulsory papers. The 5th and 6th semesters are entirely focused on Skill Subjects and compulsory papers.

Admission Eligibility:

1. Class XII Pass with Health Care as a Vocational Subject from any Recognized Board will get 1st preference.
2. Class XII Pass with any Vocational Subject from any Recognized Board will get 2nd preference.
3. Class XII Pass from any stream

AND

45 % marks in aggregate

OR

40 % Marks in aggregate and 50% marks in Subject.
